Regulatory Commission Notices for USA

This equipment has been tested and found to comply with the limits for a digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

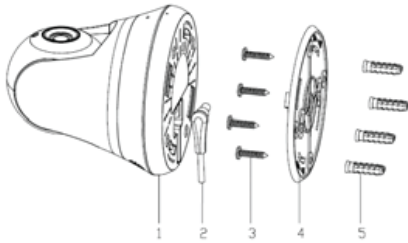

- *Reorient or relocate the receiving antenna.*
- *Increase the separation between the equipment and receiver.*
- *Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.*
- *Consult the dealer or an experienced radio/TV technician for help.*

You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

The shielded interface cable recommended in this manual must be used with this equipment in order to comply with the limits for a digital device pursuant to Subpart B of Part 15 of FCC Rules.

247-ES-CAM4A Quick Start Guide

To mount the 247 ES-CAM4A to the wall, place the camera in a position to ensure the most comprehensive view for video monitoring.

Unscrew the base of the camera and remove the plate. The dots on the base of the camera indicate the location of the expansion bolts. Insert the expansion bolts into the drilled holes.

Use a screwdriver to tighten or loosen the screws and secure the 247 ES-CAM4A and connect the device cables.

247-ES-CAM4A Quick Start Guide

1. Download “iSecurity+” App

To get started, download the iSecurity+ app from Apple’s App store or the Google Play Store on your smart phone or tablet.

2. Connect to power

Connect the ES-CAM4A to the AC power adapter, then plug your power cord into the electrical outlet.

247-ES-CAM4A Quick Start Guide

3. WiFi Setup Mode

The Setup button will glow green on initial setup.

The "Wi-Fi Setup" LEDs in the front of the camera will flash green and orange alternatively and the ES-CAM4A will rotate when the camera is ready for setup.

(This may take up to 2 minutes when the camera is first powered on.)

Safety Information

Do not point the camera directly at the sun, or else it will damage the image sensor.

Keep the camera away from heat to avoid electric shock.

Keep the camera away from rain and moisture.

Do not attempt to open, dismantle, repair, or service the camera. Doing so may cause electric shock and other hazards.

Any evidence of misuse, abuse, or tampering will void the Limited Warranty.

To maintain compliance with FCC's RF exposure guidelines, this equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body. Use only the enclosed power adapter.
