

NBX® Basic Telephone

Quick Reference Guide

This guide assumes that the access buttons on your NBX Basic Telephone have these default settings, left to right:
NBX 2101 — **Feature, Call Toggle, Transfer**
NBX 3101 — **Line1, Line2, Feature, Transfer**
Your administrator can change the settings of these buttons, although doing so limits the features that you can use.

Put a Call on Hold

While you are on a call, press **Hold** (2101) or  (3101). The display icon or button light for line 1 or line 2 blinks. To return to the call, press **Call Toggle** (2101) or the line button (3101).

Transfer a Call

1. While you are on a call, press **Transfer**.
2. When you hear the dial tone, dial the number to which you want to transfer the call.
3. As soon as you hear ringing, press **Transfer** (for a blind transfer), or wait until the recipient answers, announce the call, press **Transfer**, and then hang up.

Make a Conference Call

1. Place or receive a call. Two parties are now on the call.
2. While you are on the first call, press **Feature + 430**.
3. Listen for the dial tone. Dial the third party, wait for that party to answer, and press **Feature + 430** again.
4. Optionally, repeat steps 2 and 3 to add a fourth party.
 - At least one party must be internal. The conference ends when the last internal party hangs up.
 - To place your part of a conference call on hold, press **Hold** or . The other parties can talk to each other, but they cannot hear you. (Music on Hold is not played.)
 - To transfer a conference call, see **Transfer a Call**.
 - To drop the last person whom you added to the conference (for instance, if the called party's telephone is answered by someone else), press **Feature + 431**.
 - Some NBX systems are configured so that they support only 3-party conferences.

Adjust the Volume

- **Handset** — Lift the handset, listen to the dial tone, and repeatedly press the louder or softer button.  
- **Speaker** (3101SP only) — Press , listen to the dial tone or your caller's voice, and repeatedly press the louder or softer button.
- **Ringer** — While the telephone is ringing, repeatedly press the louder or softer button.

Set or Change Your Speed Dials, Call Forwarding, Call Pickup, and Phone Lock

See the *NBX Basic Telephone Guide* or NBX NetSet™ Help.

Switch Your Telephone to Do Not Disturb

(Calls go immediately to your call coverage point.)

Pick up the handset and press **Feature + 446**. All calls go directly to your call coverage point without ringing on your telephone. To turn the feature off, pick up the handset and press **Feature + 446** again.

Forward Incoming Calls to Your Call Coverage Point

(Calls ring once then go to your call coverage point.)

Pick up the handset and press **Feature + 441**. All calls go to your call coverage point after ringing once. To turn the feature off, pick up the handset and press **Feature + 441** again.

Park a Call

1. While you are on a call, press **Feature + 444**.
2. Dial one of the extensions reserved for Call Park.
 - 3-digit dial plan** — 601–609
 - 4-digit dial plan** — 6000–6099
 - Ask your administrator if your system has a different range of Call Park extensions.
 - The call is parked until someone retrieves it, the caller hangs up, or the Call Park timer expires.
 - If the extension you chose is busy or the Call Park timer expires, the call returns to your telephone.

Retrieve a Parked Call

Dial the Call Park extension where the call was parked.

Lock Your Telephone

Pick up the handset and press **Feature + 432**. To turn the feature off, pick up the handset and press **Feature + 432** again

- When Locking is activated, only calls to internal extensions or calls to an emergency service (such as 911 in the United States) are permitted.
- When Locking is activated, your Off-site Notification choices remain in effect.

Access Other Phone Features

The NBX NetSet utility enables you to access additional telephone features. You can also access the *NBX Entry Telephone Guide* and NBX NetSet Help for information about telephone features.

NBX[®] Voice Mail (Basic Telephone)

Quick Reference Guide

If your system uses another voice messaging application, follow the instructions for your application.

Initialize Your Voice Mailbox

1. Pick up the handset and press .
2. The NBX voice prompts guide you through the steps to create your password and initialize your mailbox.

Access Your Messages (Log In to Your Mail Box) from Your NBX Telephone

1. Pick up the handset and press .
2. Enter your password and press #.

Access Your Messages (Log In to Your Mail Box) from Any Internal NBX Telephone

1. Pick up the handset and press .
2. At the password prompt, press *.
3. At the prompt, enter your extension number.
4. Enter your password and press #.

Access Your Messages (Log In to Your Mail Box) from an External Telephone

If you can dial your telephone extension directly:

Press * during your greeting. At the prompts, enter your extension and password, and press #.

If you dial your organization's main telephone number:

- If the Automated Attendant answers, press * * during the greeting. At the prompts, enter your extension and password, and press #.
- If the receptionist answers, ask to be transferred to your voice mail. Press * during your greeting. At the prompts, enter your extension and password and press #.

Forward a Message

1. While you are listening to the message, press 5.
2. After the tone, record an introductory message. When you are finished, press #, OR press # immediately without recording a message.
3. At the prompt, press 1 to begin to forward the message.
4. Dial an extension, a voice mail group number, or a one-touch, personal, or system speed dial number.
5. Press # after each destination number. Add as many destinations as you want.
6. After the last destination number and its #, press #. The system sends your message.
