220 S. Tunnel Deluxe

The 220 Super Tunnel Deluxe utilizes our Super Tunnel hull with its 45 degree V entry to cut through the chop. Its 8 degree dead rise astern, is outstanding at getting you in and out of the shallows where the fish are. All Blue Wave boats have a specially designed anti-spray chime that forces water down and away from your boat to keep you dry. As a deluxe it comes with a lined front and back deck to give the boat a great cosmetic appearance. This model is loaded with enough special features to keep you happy and fishing for years to come.

Front Deck and Angle Boxes
